## PROCEEDINGS OF CIRCUIT COURT

MANY CASES ON CALENDAR BUT NO CASES TRIED.

With 12 cases listed on the circuit court calendar for the October term of court that ended here Wednesday forenoon, not a single word of sworn testimony was taken, no witness called and a jury sent home without having to do more than apply for their fees from the County clerk. Several cases had been carried over from previous terms of court, some were dismissed, some defendants pleaded guilty and some cases were settled out of court. It was a very unusual record.

The cases on the calendar and their disposal were as follows:

**Criminal Cases.**  
Frank Goblet, violation of prohibition law. On motion of prosecuting attorney case was nolle prossed.  
Kenneth McLeod, abandonment. Entered plea of guilty and was sentenced to from one to three years in Jackson prison, with recommendation of one year.  
Bernard Callahan, violation of prohibition law. On motion of prosecuting attorney case was nolle prossed.  
Charles Ford, violation of prohibition law. Continued on his own recognizance to next term of court.  
Paul Sivrais, violation of prohibition law. Continued on his own recognizance to next term of court.  
Roy Wells, violation of prohibition law. Entered plea of guilty. Was placed under probation for one year with M. A. Bates as probation officer.  
Burt Damoth, violation of prohibition law. Continued to next term of court.

Floyd Mathias, abandonment. Placed under bonds of \$500.00 and directed to pay a monthly stipend of \$15 to his wife.

**Civil Cases.**  
Jackson Steel Products Co. vs. McIntyre & Nelson, assumpsit. Case was dismissed on motion of attorney for plaintiff.

Enus Anderson vs. M. C. R. R., trespass on the case. Dismissed on motion of attorney for plaintiff.

Pearl D. Yost vs. Frank Freeland, trespass on the case. Settled out of court.

Ollie M. McLeod vs. Kenneth McLeod, divorce. Continued to next term of court.

Court was opened at 1:00 p. m. on Tuesday with Judge Guy E. Smith, presiding, and S. M. Atkins as stenographer.

**Jury.**  
The following were impanelled on the jury:

Peter Jensen, Beaver Creek.  
O. G. Furbush, Frederic.  
Lena Niederer, Grayling.  
Joseph Vance, Lovells.  
Wade Hoagland, South Branch.  
Harry Holmes, Beaver Creek.  
J. W. Burke, Frederic.  
Carl Sorenson, Grayling.  
Alvin Goff, Lovells.  
Oscar C. Rodden, South Branch.  
George McDaniels, Beaver Creek.  
E. J. Richards, Frederic.  
James Reynolds, Grayling.  
D. Shoff, Lovells.  
Fred H. Hartman, South Branch.  
Abby Ellis, Beaver Creek.  
George Thomas, Frederic.  
John Schram, Grayling.  
Alfred Nephew, Lovells.  
John McGillis, South Branch.  
John Kovvicka, Beaver Creek.  
George N. Sheldon, Frederic.  
Grace Canfield, Grayling.  
Charles Miller, Lovells.

## COMMISSIONER'S WORK PRAISED

OUTLINE OF AGRICULTURE PLEASES STATE BOARD.

County Commissioner John W. Payne, assisted by R. D. Bailey have outlined and published a course of study in Agriculture for use in the rural schools. The course as arranged has met with the hearty approval of the State board of Vocational education, as indicated by the following letter, written by E. E. Gallup, superintendent of agricultural education. He writes as follows:

Lansing, October 6, 1923.  
Supt. John W. Payne,  
Grayling, Michigan.  
My dear Mr. Payne:

I have received your outline of agriculture for Crawford County schools. I have looked over the same carefully and with much interest. I believe this is one of the best pieces of work being done in agriculture in any county in the State. Your advice to the teachers is O. K. and Mr. Bailey's outline, I am sure, will be most helpful.

Thanking you for sending me the outline, I am  
Yours sincerely,  
E. E. Gallup.

## THE SCHOOL TATLER

Donald Reynolds—Editor.  
Helen Sherman—Asst. Editor.  
Vernon Klingensmith—Athletics.

**Football.**

Coach Crane's High school football team was defeated last Saturday afternoon after a hot battle on their home grounds. The victory—Traverse City won the game during the last five minutes of play. The Traverse City players were much larger and more experienced but when it came to real hard football playing they had nothing on our boys.

Mac's punting gained much ground yards against our opponents.

Mike Martin, our high school quarterback scored the touchdown which gave us our six points which we maintained until the last five minutes of play. The touchdown which defeated us was scored by a forward pass; these were featured by Traverse City, and were the only plays they could use to advantage.

**Debating.**

The High School Debating club met Monday night for preparations for future debates. The information concerning opponents and sides will be sent out about Oct. 15 which will give us ample time for our first debate on Nov. 23. The dates of the debates are as follows:

**Preliminary.**

Nov. 23, 1923.

Dec. 14, 1923.

Jan. 18, 1924.

Feb. 8, 1924.

**Elimination.**

Feb. 20, 1924.

Mar. 14, 1924.

Apr. 18, 1924.

May 9, 1924.

From now on all those interested in debating will be expected to work and get a knowledge of the subject, so we can "go on Nov. 23."

The Athletic association is a great factor in G. H. S. We can now boast of over ninety members of just high school students. Join this union and wear the famous colors of orange and black.

**The Library.**

The librarians for this year are as follows:

Carlyle Brown.

Donald Reynolds.

Sigrid Johnson.

Mat Bidvia.

Emma Hum.

Francis Failing.

Clarence Morfit.

Wesley LaGrow.

Ed. Mason.

A rule has been made by the Librarians that books shall be let out the first five minutes of a period and received the last five minutes of the same period. This rule not only permits the Librarians to study but also does away with confusion throughout the assembly room.

When the fire bell rings—as it did today we found the school emptied in forty-five seconds.

The Physics Class are now experimenting in the laboratory.

To parents—examine report card thoroughly, sign it and be sure the student returns it immediately.

Thirty one students are planning on graduating this year. The largest Senior class in the history of our High School.

**MRS. FRANK FILLMORE.**

Mrs. Anna Fillmore, wife of Frank Fillmore, of this city passed away Thursday of last week at the University hospital at Ann Arbor, following an operation for cancer.

The Fillmore family came to Grayling from near Macleona six months ago to take up their residence here, and five weeks ago Mrs. Fillmore took ill and after being under the care of a local physician for some time was advised to go to the hospital at Ann Arbor.

The remains were brot to Grayling for burial arriving Saturday morning, and the funeral was held Sunday afternoon with services at the home. Rev. Baughn of the Michelson Memorial church conducted the services and a choir of ladies sang several hymns. Interment was in Elmwood cemetery. Besides her husband the deceased is survived by four sons and one daughter, Mrs. Gladys Dickerson, Harold and Maynard Fillmore of this city and Oscar and Jesse of Novie, Mich. The latter two sons came to be in attendance at the funeral. Mrs. Fillmore was born in Winchester, Ind., and was 54 years old at the time of her death.

**FREDERIC M. P. CHURCH.**

At the monthly business meeting held at the Methodist Protestant church of Frederic, Monday evening, the following officers were elected for the ensuing year:

**Church Officers.**

Board of Stewards—

Albert Lewis, Chairman, Charles Bender, John Ensign, Florence Lodge, Mrs. Charles Craven.

Class Leader—Mrs. George Thompson.

Organist—Eva Hart, Asst.—Mrs. Charles Bender.

Janitor—Harry B. Hart.

**Sunday School Officers.**

Superintendent—John Payne.

Ass't Supt.—Mrs. Mary Furbush.

## MCLEOD TO JACKSON 1 TO 3 YEARS

FAILURE TO SUPPORT CHILD ANGRERS COURT.

Kenneth McLeod, under postponed sentence of court ordered to pay \$12.00 each week toward support of child, neglected to comply and was sentenced by Judge Smith on Wednesday during the session of circuit court this week, to Jackson prison for from one to three years, with the recommendation of one year.

McLeod pleaded guilty to the charge of abandonment on complaint of his wife, during the April term of court. Sentence was postponed at that time to the July term of court with orders to pay a weekly compensation to his wife of \$12.00.

He again appeared before Judge Smith in the July term of court when he requested that the amount be reduced. The latter declined to do so and ordered him to continue his payments of \$12.00 each week.

A similar plea was made to the court by his attorney E. M. Harris of West Branch at this term of court. Judge Smith inquired if the payments had been kept up and learned that they had not since July. Whereupon he stated that he could extend no longer postponement of sentence and that he would be compelled to pass sentence at this time. Mr. Harris requested that the defendant be given time until Wednesday morning in which to endeavor to raise the amount of money he had agreed to pay. The request was granted but McLeod was remanded to the custody of the sheriff.

McLeod was again presented before the court Wednesday morning where he admitted he was unable to raise the necessary funds. Judge Smith informed the prisoner that he had to do a thing that he disliked to do but felt that it was his duty to do so, and sentenced him to be and remain imprisoned in the State penitentiary at Jackson for a period of from one to three years, with the recommendation of one year. It was considerable of a shock to McLeod. The Sheriff was ordered to take him into custody at once. He was taken to Jackson prison on the night train by Sheriff Jorgenson.

**STATE TEACHERS' ASSOCIATION INSTITUTES.**

2nd District Meeting at Bay City Nov. 1 and 2.

The six districts of the state will hold their annual State Teachers association institutes in the following cities: Detroit Oct. 25 and 26; Bay City Nov. 1 and 2; Lansing Nov. 1 and 2; Kalamazoo Oct. 29 and 30; Traverse City Oct. 29 and 30 and Alpena Oct. 25 and 26. Teachers are expected to attend these meetings, but, however, are privileged to attend at which ever city they may prefer. Crawford County is in the second district and no doubt most of the teachers will attend at that place. The date is Thursday and Friday, Nov. 1 and 2.

Teachers are not required to attend one of the meetings but it is expected that they will do so.

**PUBLIC LIBRARY HOURS.**

Grayling Township Library located in the town hall is open to the public the following hours: Tuesday and Thursday 6 to 8 p. m. Saturday 2 to 4 and 6 to 8 p. m.

Antoinette McKone, Librarian.

**CARD OF THANKS.**

We acknowledge through the columns of this paper our grateful appreciation of the kindness of Grayling people, especially neighbors who were so kind to us in our late bereavement. The death of our wife and mother.

Frank Fillmore, and family.

## CHILDREN'S WEEK OCTOBER 14-21

TO BE OBSERVED IN GRAYLING.

We are forgetting that our nation was founded upon the basis of religion, freedom and education for which our Pilgrim Fathers came here to make their homes.

That there is a great need of arousing the continent to the spiritual needs of children is evidenced by the fact that at least thirteen millions of the twenty-five millions of children under twelve years of age are receiving no religious education whatever. This fact is said to involve the nation in peril. It is to help change this alarming condition and make it possible for all children to receive their religious rights that the Michelson Memorial Sunday School is celebrating Children's Week beginning Sunday Oct. 14 with a special sermon to parents by Rev. Baughn on "Parents and their Relation to their children." Watch for further announcements next week.

Among the announcements locally made will be one of interest to all radio fans as arrangements have been made with the Detroit News and the Detroit Free Press to have the following program presented over the radio that week:

Tuesday, October 16th at 6:30, over the News—Dr. Sanborn of the First Baptist Church, Detroit, will speak on "The Sunday School and What It Means to the Child."

Wednesday, October 17th at 7:30 over the Free Press Radio—Mrs. Ross Beaumont, former President of the Story Tellers' League, will speak on "Story Telling."

Friday, October 19th at 6:00 over the News Radio there will be a talk on Books for Children. Also Friday at 7:30 over the Free Press—Rev. E. Neider of the Evangelical church of Detroit, will speak on "Cooperation Between Home and Sunday School."

These may be heard at the Board of Trade rooms, arrangements having been made whereby the public are invited to go there and listen to the programs on these evenings.

There will be a card party at Shoppenagon Inn next Thursday evening October 18th given by the ladies of St. Mary's church. Come and bring your friends.

## K. OF P. TO HAVE HALLOWE'EN PARTY.

At the first meeting of the season held Wednesday night, the local Pythians planned to start the year's work out with a social affair, which will be held Wednesday night, October 24. It will be a Halloween party with all the features that go with such a party. The following members have been appointed to make the arrangements:

Executive committee: O. P. Schumann, Dell Weir, Roy Milnes and T. P. Peterson.

**LET THERE BE MORE LIGHT.**

Michigan has the best lighted community in the United States. Statisticians in the electric lighting industry, making a survey of street lighting systems, have reported that the village of Grosse Pointe Park, a suburb of Detroit, has 450 "units" or decorative lamps on its streets, each with 1,000 candlepower capacity. As the census gives the town a population of 900, this is one light for every two inhabitants.

The ratio of light to population far exceeds any city in the United States, and makes Grosse Pointe Park a better lighted place than New York's "White Way."

The girls with pretty arms have so far manifested no fear of getting cold in sleeveless dresses.

The people who drive automobiles with one hand, may have to hobble on one foot for some time thereafter.

## COUNCIL PROCEEDINGS.

Meeting held on 1st day of Oct., 1923.

Trustees present Atkinson, Wingard, Hoelsi, Sales, McCullough, Reagan, trustees absent none.

Minutes of the last regular meeting read and approved.

To the President and members of the Common Council of the Village of Grayling:

### Health is the Most Valuable Asset You Have

Newark, Mich.—"Some years ago I was troubled with dizziness, palpitation, loss of appetite and sore and painful stomach. I tried the best physicians I could hear of, and also several put-up medicines, but nothing did me any good. Some physicians said it was my heart; some said it was my stomach; while others said it was my nerves. I got so bad I could not work very steadily, when a friend came to see me and insisted upon my trying Dr. Pierce's Golden Medical Discovery. I was discouraged, but tried it anyway, and after taking the second bottle, I felt much better. I then bought six bottles and I believe the 'Discovery' saved my life. It was rightfully named 'Golden Medical Discovery.' I would recommend it to all who need such a medicine.—Chas. E. Backus.

### BANISH YOUR GOITER

**Cure Your Goiter Comfortably at Home**  
Thousands of cases of goiter have been cured with iodine. But it is not safe to take the drug in its pure form. It is a powerful irritant and in some forms is poisonous. The only safe and effective way to take iodine is in a natural vegetable form of iodine, mild and harmless, and so prepared that the objectionable features of iodine are eliminated. It is therefore absolutely safe to take. Each bottle contains 100 capsules, 25 for 25¢. Send 5¢ today for a trial bottle with complete directions. Write to Dr. J. C. ### SWAMP-ROOT FOR KIDNEY AILMENTS

There is only one medicine that really stands out pre-eminent as a medicine for curable ailments of the kidneys, liver and bladder.

Dr. Kilmer's Swamp-Root stands the highest for the reason that it has proven to be just the remedy needed in thousands upon thousands of distressing cases. Swamp-Root makes friends quickly because its mild and immediate effect is soon realized in most cases. It is a gentle, healing vegetable compound.

Start treatment at once. Sold at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation, send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Advertisement.

### A Long-Lived Family.

Great Britain lays claim to what is believed to be the longest-lived family in the world. They are seven in number—five sisters and two brothers. All are married. They reside on the Island of Skye, the largest of the Inner Hebrides, Inverness-shire, Scotland. All receive the old-age pension from the British government, and their combined ages exceed 550 years.

### What Is Islam?

An Arabic word, meaning "complete and entire submission of body and soul to God. His will and His service, as well as to all those articles of faith, commands, and ordinances revealed to and ordained by Mohammed, His prophet." It is the proper name of the religion generally known as Mohammedanism, and consists in an observance of the following five duties: Declaring that there is but one God; rectifying prayers

daily; giving legal alms; observing the month of Ramadan as a fast; making one pilgrimage to Mecca during a lifetime.

Origin of Salutes by Guns. Saluting by guns is said to have had its origin in the British navy. Saluting between ships, however, did not originally indicate a compliment, neither was it a demonstration of loyalty. In the old days foreign ships of war when met at sea, or a distant harbor, had to be friendly. Guns were normally kept

loaded, and could only be unloaded by being fired, says the Detroit News. This was done on the approach of a foreign ship against which no hostile action was intended, as an indication that no such action would be taken. The approaching ship replied by similar action.

### DAM RIVER TO STOP FLOOD

Barrage Type Constructed in South Africa to Prevent Collecting of Mud in Reservoir.

After seven years of building, a dam that stops a 40-mile river in South Africa was recently completed. A barrage type was chosen to prevent collecting of mud and earth in the reservoir and to avoid flooding of private property on the river banks. In the average year enough dirt is carried down this river to cover 720 acres a depth of six inches. Passing through tanks and filters and being treated with chemicals clears the water. Thirty-six sluice gates control the huge barrage, 1,400 feet long. When full, the depth of the water will be 25 feet. At the formal opening a British prince officiated.—Popular Mechanics.

With the increase in popularity of water ices among patrons of refreshment pushcarts, ball park caterers and other vendors the edible drinking cup is appearing. It is of graham cracker ingredients and some are lined with chocolate.

### Trade Revival Vital to U. S.

Far away, but eventually affects your pocketbook: Great Britain. In the first six months of 1923, exported more than three times as much coal as in the first six months of last year. Also, correspondingly, nearly four times as much iron and steel, eight times as much cotton goods and nearly six times as much woollens.

An English revival of trade is important to us because her ability to pay what she owes Uncle Sam depends largely on her export markets.

## Like Looking at the Sun

Looking into one of the huge rotary kilns where the raw materials for cement are burned into clinker is just like looking at the noonday sun.

The terrific heat required makes a glare of light so intense that the glowing flame would temporarily blind you.

But borrow the workman's colored goggles to protect your eyes while you take another look into the kiln. Then you will see a tornado of powdered coal—or gas or spraying oil—bursting into a sheet of sun-white flame.

Into the other end of the kiln flow the powdered limestone and shale [clay]—the raw materials for cement.

As the slowly revolving kiln tumbles the materials about, they are subjected to gradually increasing heat. During their three-hour journey through this inferno, moisture and gases are first given off. Finally as the powdered materials reach the sunwhite flame, they half melt into glass-hard balls called "clinker." This clinker, an entirely new chemical compound, when finely powdered is portland cement.

Portland cement kilns consume great quantities of fuel—30 pounds of coal or its equivalent for each 94-pound sack of cement. For the whole cement making process the consumption of coal is approximately 50 pounds a sack—more than half a ton of coal to a ton of cement.

### Had a Season Ticket.

Two brothers had lived in a village near Aberdeen and had traveled to town to business every day by train. Not long ago one of them died, and the other decided to have the coffin containing the body conveyed by train to the city.

He sought the advice of the station-master, and was told that he would have to procure a special ticket.

"A special ticket," he gasped in dismay. "What would I do that for? His season ticket hasn't expired yet!"

### Population of Canada.

The population of Canada is about equally divided between city dwellers and country dwellers. The total urban population is given as 4,352,773 and the total rural population 4,435,710.

In Prince Edward Island and Saskatchewan the rural population runs about 75 per cent of the whole.

### Her One Fault.

"I hear the new cook you got was almost perfect." "Yes; the only thing she lacked was staying power."—Philadelphia Bulletin.

## A Simple Guide to Proper Food Selection

- Nourishment—** Grape-Nuts with cream or good milk contains every element necessary for perfect nutrition.
- Digestibility—** Grape-Nuts is partially pre-digested by 20 hours' baking. It is easily assimilated by child or adult.
- Flavor—** Grape-Nuts, made of wheat and barley, is sweet with natural sugar self-developed from the grain in the making. It has a delightful, nut-like flavor.
- Character—** Grape-Nuts is real food—the kind you can depend upon for strength and energy. Its crisp granules invite thorough mastication, thus helping to keep the teeth and gums healthy.
- Economy—** Grape-Nuts is so compact that a package contains many servings; and each serving provides unusual nourishment. A portion for the cereal part of a meal costs about one cent.

WAS BROTHER OF NELS MICHELSON.

Rasmus Michelson, a brother of  
Nels Michelson of Detroit, a former  
well known citizen of Grayling, passed  
away at Mercy hospital Saturday  
night, at the age of 93 years. The  
immediate cause of his death was  
pneumonia.

Rasmus Michelson was born in  
Falster, Denmark, December 3, 1830.  
About 55 years ago he came to America  
and made his home in Manistee,  
until he came to Grayling about ten  
years ago. While here he first made  
his home with his brother Peter  
Michelson, but at an early date be-  
came ill and was taken to Mercy Hos-  
pital. Altho he recovered from his  
illness he continued to remain at the  
hospital in spite of the efforts of relatives  
to come and live with them. He  
was comfortable at the hospital and  
wished to remain there. He was  
known at the hospital as "Grandpa".  
Michelson and was always very popular  
among the Sisters, nurses and pa-  
tients and was generally loved by all,  
and will be genuinely missed at that  
institution.

He is survived by two children,  
Mrs. Thomas Woodfield of Jackson,  
and Mr. Hans Rasmusson of Manistee  
who arrived here Sunday night. He  
also left two brothers, Nels Michelson  
of Detroit, and Chris Michelson  
of Portland, Oregon.

Funeral services were held at the  
Sorenson Bros. undertaking parlors  
Monday forenoon. His remains were  
taken to Manistee Monday afternoon  
and interment was in that city Tues-  
day.

A cordial invitation is extended to  
the public to attend a card party next  
Thursday evening October 18th at the  
Shoppenagon Inn, given by the ladies  
of St. Mary's Church.

## HUNTERS DAMAGE ELECTRIC LINES

Reports from electric service com-  
panies over the state to the Michigan  
public utility information bureau since  
the opening of the hunting season tell  
of serious and far-reaching damage  
which is being done by careless search-  
ers for game.

The glass and porcelain fixtures on  
transmission towers and wooden poles  
are being used as targets and the  
practice is an extremely dangerous  
and expensive one. An appeal is be-  
ing made for the discontinuance of the  
practice.

Insulators are vital in preventing  
short circulating of electric current.  
If one is broken, a slight moisture is  
sufficient to cause electricity at high  
voltage to travel downward and burn  
a wooden pole, or put an entire trans-  
mission on line out of service. When  
this happens, homes and factories and  
stores being served perhaps hundreds  
of miles away must suffer. It often  
takes days for the linemen to locate  
the trouble and replace the broken in-  
sulator. This work is frequently done  
in the most severe weather and under  
working conditions of the greatest  
danger to human life. All the electric  
maintenance man knows is that  
the line is not working well and he  
must usually travel many miles to lo-  
cate the damage.

Several service companies are offer-  
ing cash rewards for the apprehension  
of men and boys who are careless with  
firearms in this respect, but it is hoped  
that a public warning of the great  
possibilities for property damage and  
loss of life will be sufficient to stop  
the practice.

### NOTICE OF LETTING.

Notice is hereby given, that I, Al-  
fred Hanson, clerk of the Board of  
Grayling Township, Crawford County,  
State of Michigan, will on the 13th  
day of October, 1923 at 8:00 p. m.  
cease to take bids for the building of  
two abutments with wing walls, which  
shall be erected about 8 miles east of  
the Village of Grayling at what is  
known as the Stephens bridge. Said  
job is to be let on a yardage basis, all  
reinforcing to be furnished by the  
township.

Specifications may be examined at  
the office of the Township Clerk. Any  
person desiring to bid, must deposit  
with the township clerk a certified  
check for \$200.00 as a guarantee that  
if his bid is accepted, he will enter  
into a contract for the performance  
of the work. If he fails to do so, the  
amount deposited shall be forfeited.

Contract will be made with the low-  
est responsible bidder, giving ade-  
quate security for the performance  
of the work in a sum then and there  
to be fixed by the township board,  
they reserving the right to reject any  
and all bids.

Dated Oct. 1, 1923.

M. A. Bates, Supervisor.

10-4-2, Alfred Hanson, Clerk.

### WANT THE HIGHWAY COMPLET- ED BETWEEN ROSCOMMON AND WEST BRANCH.

The Good Roads banquet and meet-  
ing of the Roscommon Chamber of  
Commerce held Thursday evening at  
Lakeview Inn Pavilion, St. Helen, was  
a most enthusiastic gathering of  
boosters. Over one hundred were in  
attendance from Roscommon, Craw-  
ford, Ogemaw and Gladwin Counties.  
West Branch was represented by a  
large delegation.

The object of the meeting was to  
devise some plan which would com-  
plete the unfinished stretch of road  
on M-76 through St. Helen between  
West Branch and Roscommon. This  
link is about fifteen miles long and  
when finished will complete the main  
trunk line through the center of the  
state, linking Toledo with Mackinaw.  
It was the contention of the various  
speakers that when completed this  
short length of road would bring De-  
troit and Mackinaw eighty miles  
nearer than the route by M-10 thru  
Albena.

The toastmaster of the banquet  
was John Carter and the principal  
speakers were Congressman Roy O.  
Woodruff, Frank Marston, Secretary  
of the Northeastern Development Bu-  
reau, State Senator H. S. Karcher,  
Guy H. Green, district engineer of the  
state highway commission and Homer  
E. Buck, Postmaster of Bay City.  
These speakers expressed thorough  
sympathy with the needs of the road  
building in this county and of future  
cooperation in this matter and of their  
surprise in learning just what kind of  
a booster meeting could be put on in  
this section. It was decided that  
large numbers of men from the four  
counties adjacent should go to Lan-  
sing at a later date to be decided upon,  
and to put the matter up to the High-  
way Department. Among other prom-  
inent men were Atty. Geo. of West  
Branch, Postmaster McKay, J. A.  
Whitaker, W. A. Crandall of West  
Branch paper, Eugene Matheson of  
Roscommon paper and E. A. Thomas,  
state editor for the Tribune of Bay  
City, Chamber of Commerce, County  
Commissioner Roy McKibbin and a  
number of road commissioners of the  
various townships in the various coun-  
ties.

Mr. A. F. Johnson in a few choice  
words welcomed the assemblage to St.  
Helen.

The large pavilion was tastefully  
decorated with cedar and pine—inter-  
sprersed with clusters of autumn  
leaves. The tables tastefully decora-  
ted in the same manner were placed  
down either side of the hall and  
across one end in a continuous line.

This being the first meeting to  
which the ladies were invited, Mrs.  
Kate B. Carter, President of the Ros-  
common County Woman's Club, thank-  
ed the Chamber of Commerce for its  
invitation and told of their apprecia-  
tion and of their interest in things  
pertaining to the county, the state and  
the nation. Mrs. Carter alluded to  
the coming state Federation of Clubs  
in Detroit at which about six thou-  
sand active women will be in attend-  
ance and that the clubs were keeping  
tab on the state and national congress  
and knew to a man how the votes on  
questions of interest and those espe-  
cially sponsored by the women.

## ALL PAVED M-14 IS STATE'S AIM

PLANS ORDERED FOR CON-  
CRETING CENTRAL TRUNK  
LINE FROM MACKINAC  
TO OHIO.  
Plan to Start Next Year.

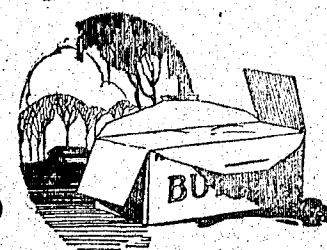

Lansing, Mich., Oct. 9.—Governor  
Groesbeck today asked Frank F. Ro-  
gers, state highway commissioner,  
to prepare tentative plans for the  
complete improvement of a highway  
from the Straits of Mackinac south-  
through the central section of the  
southern portion of the State.  
The Governor declared that a paved  
road should be constructed. The  
State should endeavor, he indicated,  
to fill in the gaps on Trunk Line  
M-14 now covering that route, with  
concrete as rapidly as possible. He  
intimated that the State next year  
will attempt to surface as much of  
the unpaved portions as possible.

## Production of Motor Cars in Big Volume Requires Vast Resources and Facilities

Top picture shows Plant 2 of The Studebaker Corporation, South Bend, where the Light-Six models are  
manufactured complete. The middle view shows Plant 1, also at South Bend, where the open and closed  
bodies, springs, windshields, etc., for all models are made. Studebaker's Detroit plants are not shown in  
the above illustrations.

STUDEBAKER'S production re-  
cord of 110,540 cars for the  
first eight months of this year  
—surpassing the record for the en-  
tire year of 1922—has caused wide  
comment in motor and business  
circles.

In an effort to keep pace with  
demand, Studebaker produced, dur-  
ing the month of August, a total  
of 15,700 cars, which broke all re-  
cords for a single month's produc-  
tion, and indications point to a con-  
tinued, heavy demand.

Such an achievement requires  
enormous physical and financial re-  
sources, an idea of which may be  
gained by the knowledge that  
Studebaker's actual net assets total  
\$90,000,000 including \$45,000,000 in  
plants.

Notable among these plants are  
the immense new factories at South  
Bend, Ind., in which the Light-Six  
models are manufactured complete.  
They reflect the results of six  
years' exhaustive investigation and  
study by construction engineers  
and production men, and are re-  
cognized as among the most mod-  
ern and efficient manufacturing  
plants in the world.

### Innovation In Assembly

One of the greatest advances the  
automobile industry has made has  
been in the direction of building  
motor cars of lighter weight with-  
out the sacrifice of strength, thus  
making them sturdy and service-  
able, yet economical in operation.

The Studebaker Light-Six is a  
striking example of such a car, and  
every detail in connection with the  
arrangement of the various factory  
buildings, the selection and placing  
of machinery and stock has been  
inspired by the desire on the part  
of Studebaker experts to manu-  
facture the Light-Six on the most  
economical and efficient basis, and

to give the purchaser the benefit of  
savings effected.

One of the striking innovations  
and efficiency ideas in the new  
factory is to be found in the build-  
ing where final assembly is carried  
on. Here an improvement on the  
familiar conveyor system used in  
automobile factories is employed.

### Endless Chain to Completion

Moving along on an "endless  
chain" behind each frame upon  
which a car is assembled is a  
carrier upon which the various  
units that go into the car are hung.  
These units, such as transmission,  
steering assembly, axles, etc., are  
stocked alongside the endless chain,  
and placed on the carriers as they  
go by.

When the last of these units  
is hung upon the carriers, the  
actual assembly of the complete car  
begins, under careful and expert  
supervision, an improvement upon  
the former method of long drawn-  
out, piecemeal assembly. The ar-  
rangement of this progressive as-  
sembly also provides for the  
mechanical handling of all material,  
and it reduces to a minimum the  
cost and confusion of moving stock.

The sub-assembly building, where  
the various units themselves are  
assembled, is four stories high, of  
reinforced concrete construction,  
and has an interior bay open to the  
roof. The bay is covered with a  
glass skylight, and is equipped with  
crane service and landing balconies  
on all floors for the quick and  
economical handling of materials.

The bay also has a depressed un-  
loading track with accommodation  
for ten freight cars. In this sub-  
assembly building are located the  
store-rooms, tool departments, ma-  
chinery maintenance and repair de-  
partments, together with factory  
administration offices and em-  
ployees' restaurant.

The great building that houses  
the stamping department which  
represents an investment of  
\$4,000,000, is of steel-frame con-  
struction, with tile roof and glass  
sides. Heavy metal-forming presses  
manufacture the frames, fenders,  
hoods and other stamped parts of  
the car, while huge ovens are  
utilized for the baking of the en-  
amelled pieces.

Visitors who make the trip  
through the Light-Six factory al-  
ways like to linger in this depart-  
ment, watch the interesting pro-  
cesses performed—veritable mir-  
acles they seem—and study the  
remarkable economies in operation,  
as well as the perfect accuracy and  
efficiency with which each task is  
completed.

### Modernity of Facilities

Among many notable features  
of manufacture which illustrate the  
modernity of facilities of the Light-  
Six plants are the machine shops  
which alone represent an invest-  
ment of \$7,000,000. Here the  
Light-Six crankshafts and connect-  
ing rods are machined to very ac-  
curate limits on all surfaces, a  
practice that is largely responsible  
for the practical elimination of vi-  
bration in the Light-Six—a practice  
that is followed exclusively by  
Studebaker on cars at the Light-  
Six price. Sixty-one precision  
operations are required on the  
crankshaft alone.

The South Bend plants contain  
2,875,000 square feet of floor space.  
They employ 12,000 persons. They  
cost \$33,250,000. The South Bend  
factory plant cost \$14,000,000, the  
power plants \$2,500,000 and the as-  
sembly and stock plants cost  
\$5,000,000. The new foundries now  
under construction will cost over  
\$2,000,000.

## Your Doctor takes no Chances

Your doctor always uses sterile gauze, sterile cotton and sterile bandages. He never uses strips of old linen or handkerchiefs. He takes no chances of infection.

For 29 years great physicians and great surgeons have used Bauer & Black products because the name Bauer & Black is to them a guarantee of complete safety.

We sell Bauer & Black dressings because we know germ life has been made impossible by double sterilization—because each package is marked "sterile" and guaranteed to be sterile when you break its seal.

Always have in your home, ready for emergency, Bauer & Black adhesive plaster, sterile absorbent cotton, sterile gauze, and sterile bandages. The cost is small. Be prepared for the little accidents and for intelligent first aid treatment until the doctor comes. Be as careful as your doctor.

Jos. Gavenda, charged with violation of the prohibition law, pleaded guilty in Federal court at Bay City last week and was sentenced by Judge Tuttle to pay a fine of \$500 or go to prison 30 days. He accepted the latter penalty and is now serving 30 days imprisonment in House of Correction at Detroit.

The scarcity of rains during the last few weeks has caused a scarcity of water in the AuSable river so that the Grayling Electric plant has had to curtail its day service in order to save water for the nights. The power was shut off all day Wednesday of this week causing much inconvenience to power users. The low water condition exists in many of the principal streams in the state and only liberal rains can bring them back to normal, and sufficient to permit the usual amount of electric service.

Schram's Ramblers have taken the Temple theatre for the winter and will give weekly dancing parties during the season. The parties will be given on Saturday evening of each week, except that on the evening of October 26th there will be a special affair in the way of a carnival. The opening party was held last Saturday evening and there was a good size crowd present. Schram's Ramblers play all the latest dance music and no doubt these parties will be very popular affairs. This orchestra recently closed a successful season at Collen's pavilion at Lake Margrethe. The price of admission is \$1.25 and 25c for extra lady.

Mrs. Josephine Conklin and Mrs. Daniel Hoessl returned Monday from a week's visit in Detroit.

Don't forget the card party next Thursday evening October 18th, at the Shoppagon Inn given by the ladies of St. Mary's church.

Elf Rasmussen and family have moved into the Walmer Jorgenson house on Spruce street, recently vacated by Benton Jorgenson and family, who have moved to Ypsilanti.

Joseph Mayo has rented his home on the south side and expects to leave soon for the Upper Peninsula to visit his daughter, who resides there. Mrs. Mayo and son Albert expect to go to Flint to remain for the winter and Mr. Mayo will join them later.

A jolly crowd motored down to the home of Mr. and Mrs. Seeley Wakeley last Saturday evening and enjoyed the evening playing "500". Prizes were awarded for the highest score and also a consolation prize was given. There were 14 in the party.

Mrs. Esbern J. Olson left Saturday night for Saginaw to spend a few days on her way to Grand Rapids to attend Grand chapter of the O. E. S. to be held in that city this week, chosen as a delegate from the local chapter Eastern Star. Mrs. Harry E. Simpson was also in attendance.

The annual business meeting of the Danish-Lutheran church congregation will be held at Danebod hall, Sunday afternoon, October 14. All members should be present.

The crowd that gathered at Charles Corwin's home last Saturday night was certainly a merry one and everybody reports a good time. Oct. 20th there will be a hard times dance at the same place, and the harder a person looks the better for them as those in their Sunday dress won't be allowed on the floor until after midnight so better come looking your worst. Don't forget the date.

Emil Niederer and family and Miss Anna Peterson motored to Bay City Sunday and visited Mrs. Mary Pond. The latter who was seriously injured a couple of weeks ago when she fell down stairs is improving slowly. M. A. Atkinson and family, who made the drive also spent the day visiting relatives in Kawkawlin, being joined by the former party on their return home.

Mr. and Mrs. George Schaible and daughter Beverly returned Sunday night from a two weeks vacation in Bay City, Detroit and Lansing, having accompanied Mrs. Charles Hewitt and daughter Audrey to their home in Bay City when they returned home.

Mrs. Henrietta Phelps left Tuesday night for Ortonville where she intends to reside. Since the graduation of her son John, who is now attending college at Flint there is nothing special, she says, to hold her here, and that she will be able to see more of John at Ortonville than at Grayling. Mrs. Phelps has resided in Grayling for more than a quarter century and at one time she was a teacher in our public school. She has devoted much of her time to community and church service and has had a class at the Methodist Sunday school for over a score of years. She is the widow of the late S. S. Phelps, father of S. S. Jr., of Detroit; Frank of Hudson and John. This fine family have always been an asset to our community, and one of high ideals and splendid character. Mrs. Phelps says they will retain their home here and may possibly return to Grayling to reside. She has many friends here who will always be ready to welcome her.

It Actually Happened—The porter on a north bound Michigan Central sleeper was recently instructed to discharge from lower 9, at Grayling. When the porter yanked the sheets in lower 9 there was no response and investigation showed that it was empty and had not been occupied. He scratched his woolly head in perplexity, and went on about his other duties. About the time the train left Frederic, the porter was summoned by violent rings from lower 8, and went to find his Grayling passenger calling down maledictions on the entire African race. The fault was his own in getting into the wrong berth, and he was finally pacified. As the train neared Waters, one of the conductors began to take note of the passengers to be discharged at Gaylord. The tickets called for two Gaylord passengers and the one who had been carried by Grayling. But only two were up and dressed; "Say, George," said the conductor, "where's that man in lower 2? You gotta get him off at Gaylord." "For de lub of hebbins," said George, turning pale, "dat man goin' to Gaylord? Why, sah, I put him off at Grayling."—Gaylord Herald-Times.

## Michigan Happenings

Michigan's general fund from which all current expenses for running the various state departments are paid, shows a balance of \$10,337,959.48, according to the monthly statement for September issued by State Treasurer Frank E. Gorman. This figure is an increase of nearly \$1,000,000 above the balance in the general fund at the end of the last fiscal year, which ended June 30, when the balance amounted to \$9,337,959.48. Total receipts paid into all funds, including the various trust funds, and special funds carried by the state treasurer, amounted to \$17,892,068.46.

Fremont lake will be closed to all spearing for a period of three years from January 1, 1924, as a result of an order issued by John Baird, director of the department of conservation of the state of Michigan. The order is the result of a public hearing held in Fremont, when David R. Jones, chief deputy of the department was present and heard both sides of the question as presented by local people. The meeting was held after a petition was presented, signed by members of the local chapter of the Inak Walton league.

George Lyon, of Ironwood, 22 years old, was hurled 40 feet into a brush pile recently when a charge of dynamite exploded as he started to arrange the fuse. It was thought he was blinded, and he was driven 60 miles from Vilas County, Wis., to this city for medical attention, but his injuries proved not serious. When fellow workers picked Lyon up, they used a spoon to dig the dirt out of his mouth and ears.

Traveling on her way to the United States since August 19, Miss Maria Lanzar, reached Ann Arbor last week. Miss Lanzar came from the Philippines and was detained in Japan 12 days by the Tokio disaster. Miss Lanzar comes from the University of the Philippines, from which school she is commended for exceptional scholastic work. She is the first island girl to hold a Barbour fellowship.

That Springville village may soon incorporate as a city was revealed Thursday when special census enumerators from the office of the secretary of state began counting noses. If it is found that the village has the necessary population of 500 per square mile, or 4,500 people, it is expected a special election will be called to pass upon the question of re-incorporation.

All of the state officers of the W. C. T. U. at the convention at Adrian, were re-elected. They are: President, Mrs. E. L. Calkins, Ypsilanti; vice-president, Mrs. Stella B. Roben, Big Rapids; corresponding secretary, Mrs. Norman F. Mudge, Belting; recording secretary, Mrs. Myrtle F. Lockwood, Holly; and treasurer, Mrs. Hattie W. Johns, of Detroit.

Merchants in all parts of central and northern Michigan attended the buyers' show which the wholesale merchants' bureau of the board of commerce put on at the Saginaw auditorium. The exhibit was intended to educate the merchants in Saginaw trading territory as to the merchandise Saginaw wholesalers carry.

There is the possibility that the state will seek an entirely new route for the paved highway from Lansing to Grand Rapids if the county road commission of Ionia continues its refusal to pay the county's share of paying M-16 over its proposed new location. Governor Greenback announced recently.

Annesley Burrows, formerly of Detroit, a widely known writer of feature stories, died in a hospital at Toronto, Ont., after a long illness. Mr. Burrows had been totally blind for years. He had been ill since 1921, when he suffered a paralytic stroke.

Formation of a Saginaw branch of the National Aeronautics association is planned by local men interested in the development of aviation. They are endeavoring to obtain about 100 members of the national organization before organizing here.

Farmers in and around Mt. Pleasant are busy with the bean and sugar crops. The largest sugar beet crop in years will be harvested as about 8,000 acres of sugar beets in this section are under cultivation.

Charles Aseltine, a farmer of Vevoy township, three miles east of Mason, was killed while he was bending over a charge of dynamite which had failed to explode when he expected it to. The charge went off, throwing his body high in the air and killing him.

About 400 members of the Bay City, Saginaw, Bad Axe and Durand commanderies of the Knights Templar took part in the annual district field day here last week.

Plans have been started by Agricultural Agent Harold Vaughn to organize a Manistee county apple and potato exhibit for the Michigan apple and potato show in Grand Rapids, November 20 to 23. Many exhibitors at the county fair have promised to take part.

The appointment of Mrs. Olive Dobson Henkel as instructor in voice at the Michigan Agricultural college has been announced. Mrs. Henkel is known in Lansing school and musical circles.

Recent figures compiled on the number of books in the general library of the University of Michigan show an enormous growth since 1865. In 1865 there were 13,551 volumes in the general library; today there are 525,675 volumes. President Burton declared the library is the heart of a university, and that by strengthening the library, the whole institution benefits. That the library has enjoyed a steady growth is evidenced by the gains in 10 year periods. In 1875 there were approximately 22,000 volumes and ten years later there were 56,000.

Health officers may, in the interests of "common safety," require that children be vaccinated or be excluded from the public schools, the supreme court ruled Monday, upholding a decision to that effect in Ingham county circuit court. When several cases of smallpox appeared in Lansing last winter Rowland Hill, city health officer ruled that no children, teachers or janitors were to be admitted unless vaccinated. The suit was to compel obedience of the order on the part of the board of education.

The federal quarantine against the European corn borer has been extended by the department of agriculture, to include numerous towns in New England, New York, Pennsylvania, Ohio and Michigan, the order effective Monday, October 1. The department announced that as the pest gradually spreads the area under quarantine is widened. The new territory now becomes subject to the quarantine regulations and is aimed to keep the pest in check.

The work of dredging Manistee harbor has been completed by the United States dredge Kewanee. The Kewanee deepened the harbor considerably, took a 40 foot crib off the end of the north pier and 350 feet off the end of the south pier. The complaint that entering Manistee harbor is dangerous during a northwest wind has been eliminated by these repairs.

Fears for the safety of Mayor E. H. Ryder and his wife, of East Lansing, who were thought to have been victims of the Japanese disaster, were banished with the receipt of a letter from them by Mrs. S. T. Robinson, a sister of Mrs. Ryder. The letter was dated Aug. 23, and mailed at Seoul, Korea, which indicates that they left Japan before the earthquake came.

The oldest house in Menominee has been wrecked to give place to a modern house. The residence was erected in 1855 by A. F. Lyon, who built it on the edge of a 40-acre tract of thickly wooded land through which Ogdan avenue, one of the principal streets of the city now runs. The house was a "hand-made" one all finished lumber being planed by hand.

A proclamation issued by the state department of public safety asks citizens of the state to remove all fire hazards from their property. According to the proclamation, the fire loss in Michigan is \$15,000,000 a year. The national fire loss, it claims, is \$975 a minute, and last year 30,000 persons, 85 per cent of them women and children, were burned to death.

Four hundred members attended the district meeting at Monroe of the Holy Name society, comprising Lonsdale and Monroe counties. The following officers were elected: Joseph Liba, Adrian, president; Gabriel Dusean, Erie, vice-president; Leo Hoffman, Monroe, secretary and treasurer; Doctor Flannigan, of Whitford, was named spiritual director.

Herman A. Merike, 34 years old, of Detroit, was electrocuted while trimming a tree in the rear of his home. The saw he was using came in contact with a high tension line of the Detroit Edison Co. The power line carried 6,500 volts.

Twenty-three students of the literary college of the University of Michigan were awarded "All-A" records in the summer school session, Arthur G. Hall, registrar, announced last week.

Miss Ella M. Backus for 30 years an attaché of the district attorney's office at Grand Rapids, was appointed first woman assistant district attorney in Michigan.

The Kalamazoo boy scouts have planned a campaign to raise a fund of \$15,000 to further the work of the organization.

Brooding over the recent marriage of her only son, Mrs. Fred Kaufman, of Menominee, ended her life by hanging.

Karl W. Lambooy, of the Lambooy Label & Wrapping Co., of Kalamazoo, was elected president of the Michigan Typothetae Federation at the concluding session at its ninth annual convention at Kalamazoo. He succeeds Geo. A. Barnes, of Flint.

The new Belle Isle bridge, which was started three years ago will be completed and ready for traffic, October 15, according to announcement made by John W. Reid, commissioner of public works.

Income tax returns for the September quarter in the western district of Michigan increased 50 per cent over the same period last year. Charles Holden, internal revenue collector, for the district, announced recently. The collections amounted to \$1,619,818.72, as compared with \$1,103,828.83 last year.

Delegates were present from all over Michigan for the opening of the fifteenth annual Michigan Orthodox Baptist association meeting at Cedar Springs.

## NEWS REVIEW OF CURRENT EVENTS

Governor Walton, Beaten in Oklahoma Election, Refuses to Give Up Fight.

FOES WANT HIM INDICTED

German Cabinet Resigns and Chancellor Stresemann Plans Directorate—Monarchy Due Soon in Bavaria—Federation of Labor Convention—President Coolidge and World Court.

By EDWARD W. PACKARD  
T WAS the turn of Governor Walton to get walloped last week, and he did get walloped. But he didn't take the blow lying down. To those who enjoy a stand-up and knock-down fight, the news from Oklahoma these days may be pleasant reading, but it really is not edifying. It would seem that when such conditions can continue for a long time there must be something lacking in our democratic institutions.

Having obtained court sanction for the special election called for last Tuesday, the people of Oklahoma insisted on holding it. At first, Walton declared it should not be held, insisting that, as he had called it, it was his election and he could call it off if he desired. He reconstituted the state election board so that it might obey his behests; ordered the entire National Guard of the state mobilized and then recalled the order; called another special election for Dec. 6; yielded at last in the face of various restraining orders from courts, and said he was willing to vacate his office if the people of the state preferred the rule of the "invisible empire" to that of the constituted authorities. In several counties the governor's efforts prevented the citizens from casting their votes in the usual manner, but many of them mailed their ballots to the capital and others used improvised election machinery. But the election was held, and by a majority of about four to one the voters approved of the constitutional amendment authorizing the legislature to convene itself to consider impeachment charges against the governor and other state officers.

Though he was thus knocked through the ropes, Walton climbed back into the ring and obtained from District Judge Tom G. Chambers, one of his appointees, a temporary restraining order forbidding the state election board to certify the returns to the secretary of state. Hearing on the application to make this order was set for October 9. The governor asserted the election was illegal because the proposed amendments submitted had not been properly advertised, and that thousands of voters were intimidated by deputy sheriffs and by the influence of the Ku Klux Klan. The opposition countered with a petition for a grand jury in Oklahoma City to investigate charges that Walton has misused public money and to inquire into the appointment of thousands of state "secret service" agents of the executive.

Governor Walton is issuing a stream of proclamations and statements. In one of the latest he says: "The klux guns of the nation are trained on me. I am daily in receipt of threats of assassination, but I had rather die by the hand of an assassin than die the death of a coward. The fight is to a finish. There will be no compromise."

Representative McBee, leader of the anti-Waltonites in the legislature, asserts there is no Klan issue in Oklahoma, "except in the hallucinations of a disordered brain."

HAVING failed utterly to come to terms with the Social Democrats, who opposed the abolition of the eight-hour day and the reorganization of the cabinet to include the Nationalists, Chancellor Stresemann of Germany dissolved his ministry and was directed by President Ebert to form a new cabinet. The chancellor's spokesman announced that there would be no new party cabinet, but a small ministry similar to a directorate, and it was assumed the reorganizing would be dissolved. Various cabinet offices will be left unfilled and others will be unfilled.

Undertaker Had Alluring Notice to Attract Attention of Possible Customers.

The first advertisement of an undertaker appeared in a London Journal in 1670, when a coffin maker at the sign of the Golden Pall and Coffin announced for sale "very fashionable lace and plain dressings for the dead of all sizes, with very fashionable collars."

It was at about this period, during the reign of Charles II, that the public journals of England first came into use as advertising mediums. Most of the early commercial "ads" were inserted by quack doctors and vendors of wonderful specifics and "cure-alls."

One of the favorite types of that day, it would seem from advertisements, was "Dr. Butler's Ale" which was said to be "an excellent stomachic drink," which "helps digestion and dissolves congealed phlegm upon the lungs, and is therefore good against

ed and put in charge of direct representatives of the chancellor. The directorate's policies, it was said, would include the seizure of economic values, the control of prices, increased production and the giving up of the eight-hour law. It is asserted that the Bavarian dictatorship is not a subject of controversy.

Under the plan of Minister of Finance Helfferding, the time has arrived for the industrialists headed by Stinnes to begin paying real taxes with which the government intended to start paying reparations to France so that an adjustment in the Ruhr might be accomplished. Stinnes and his crowd asserted they could not pay these taxes or permit a part of their property to be confiscated, and insisted a ten or twelve-hour day for workmen was necessary if reparations were to be paid, for it would be necessary for Germany to undersell the rest of the world.

In Bavaria Dictator von Kahr is defying the Berlin government and the civil commission appointed for his state. He also defies the Socialists and to their threat of a general strike retorts with an order forbidding strikes and making them punishable by imprisonment. For terror acts or sabotage penal servitude with unlimited fines is ordered, while for endangering lives or treason to the new system the penalty is death.

"The monarchy in Bavaria will not be proclaimed now," said von Kahr, "but it is growing, and it will come by itself when it is ready." It is probable that Crown Prince Rupprecht will be placed on the throne. This is the aim of Hitler, chief of the Bavarian Fascists, who is supported by General Ludendorff and to whom it is said von Kahr has been making friendly advances.

Royalist uprisings took place in several parts of Germany last week, the most important being at Kustrin, Prussia, where an organized band captured the fortress, only to lose it next day. There was some bloodshed, and the leaders of the revolt were imprisoned.

In the occupied regions miners and post office employees resumed work generally, but the French officials negotiated in vain with the railroad workers. The cities of Dusseldorf, Essen, Dortmund, Witten, Hordern and Bochum began paying the expenses of the French and Belgian armies of occupation. The separatists of the Rhineland staged a demonstration in Dusseldorf which developed into a battle with the German police in the course of which a number were killed and hundreds wounded.

ONCE again the attempt was made last week to persuade organized labor in the United States that it should form a national labor party. At this writing it seems certain to fail. Delegates from Illinois and Minnesota to the annual convention of the American Federation of Labor in Portland, Ore., introduced resolutions calling for adoption of "independent political action for workers."

Two fraternal delegates from Great Britain, without trying to influence the action of the federation, told of the recent great successes of their labor party, which is now the official opposition in parliament and is not unlikely to get control of the government before long.

President Sam Gompers was as always quick and forceful in reply. He outlined the distinctions between the American and British political schemes, showing that in England the labor men had only to drive at one objective—control of parliament—while here there are congress and all the legislatures. He spoke of the vast difference in citizenship.

"We are wage earners," he said. "To have a dominating influence in determining the laws emanating from the employers' officers is of greater importance to the men and women who toil than any laws passed by congress or legislatures."

Dennis Lane, International president of the meat cutters and butchers' union, announced that an intensive campaign would begin at once to reorganize the workers in the meat packing industry. The International Plasterers' union pledged its co-operation in aiding ex-service men to become efficient building trades mechanics, and it was believed other building trades unions would take similar action.

Secretary Frank Morrison reported that the defense fund of the federation amounts to \$183,934. The total receipts for the year were \$607,880, and the expenditures \$602,308. Total membership of the federation was announced as 2,926,468, showing a loss for the fourth consecutive year, and of more than 260,000 in the past twelve months.

PRESIDENT COOLIDGE has let it be known that he will hold a series of conferences with influential Democratic senators, as well as with Republican leaders, to obtain their ideas as to the best way of getting action on the proposition of American membership in the world court. The President will remind the senate that the protocol still awaits its action, but it is understood in Washington that he will not attempt to force its adoption. He wants the question out of the way early, however, so that congress shall be free to devote its attention to domestic problems.

Among the friends of Hiram Johnson the announcement of the President's intention to consult the Democrats was taken to mean that he would exert his influence in favor of the world court plan, and they believe this will bring the California senator out as an avowed candidate for the presidential nomination. Indeed, Mr. Johnson has said as much, though he declares he will not yet do anything to embarrass the President.

OUR other Senator Johnson, Magnus of Minnesota, has been in the East talking, being interviewed and calling on President Coolidge. The "effete" part of the country seemed disappointed to find that Magnus wasn't a freak, but was well dressed, benevolent appearing and quite civilized. At the White House he conferred with Mr. Coolidge and Secretary of Agriculture Wallace on prices fixing for agricultural products. When he came out he said: "I told President Coolidge that price fixing is the only remedy for the present distressing situation. I also told him about the producers' alliance and its determination to hold the crop off the market until the producers could obtain a fair price for their products. The President was sympathetic, but he had evidently not made up his mind."

ANOTHER severe earthquake shock occurred at Tokyo Thursday, driving residents from their homes and cutting off the electric lights. About the same time a temblor was felt in California.

Daniel E. Doudy, representing the silk industry of America, told Premier Yamamoto and the ministers of agriculture last week that the Japanese silk trust is blocking shipments, causing an economic loss of \$300,000,000 monthly, and that this will cause great mills at Paterson and Passaic to close down very soon. Though Yokohama cannot be used as a port until probably next year, the Japanese trust refuses to permit temporary transfer of shipments to Kyoto, Nagoya and Shimidzu.

Official Japanese figures place the number of known dead in the earthquake at 103,000, the injured at 125,000 and the missing at 235,000. These figures are probably overconservative.

THE ZR-1, the American navy's huge new dirigible, which is to be christened Shenandoah—"Daughter of the Star"—made a record trip from Lakehurst, N. J., to St. Louis and return by way of Chicago, in forty-seven hours and forty-nine minutes. She traveled about 2,200 miles during forty-six hours actually in the air. Her only stop was in St. Louis, where great throngs of aviators and spectators were gathered for the international air races which began on Thursday.

EVACUATION of Constantinople was completed by the allies on Tuesday, and on Saturday the Turkish troops formally entered the city amid scenes of great rejoicing. It is reported that Turkey will soon be declared a republic.

OVER in Spain the directorate has abolished the last traces of civil rule. First the civil governors of the various states were done away with and then all the municipal governments and all "general councils" or county organizations. The cities and towns are ruled by juntas and direct orders of Dictator Primo Rivera.

Stay on the Farm.  
Of all occupied men and boys in twenty-three leading countries, 51.4 per cent are engaged in agriculture, and of all occupied women and girls, 60.6 per cent follow agricultural pursuits.

colds, coughs and consumptive diseases; and, being drunk in the evening, it moderately fortifies nature, causeth good rest and hugely corroborates the brain and memory."—Detroit News.

Auto Output Breaks Record.  
Washington—The record production of automobiles and trucks this year was shown in figures made public by the Commerce Department. For the first eight months the totals passed those for either of the entire preceding two years. Based upon reports from 181 manufacturers, the department's report showed that up to Sept. 1, the factories this year had turned out 2,431,003 passenger cars and 253,774 trucks (including fire apparatus and street sweepers).

Town End Daylight Saving.  
New York—More than 350 cities and towns in New York and several eastern states that April 29 set their clocks forward one hour to save daylight during the summer, return to standard time. New York and New Jersey were the principal states in the eastern time zone in which under local ordinances, the daylight saving scheme was put into effect. Massachusetts has a daylight saving statute, while about 50 cities in the New England states observed the change in the clock.

Auto Output Breaks Record.  
Washington—The record production of automobiles and trucks this year was shown in figures made public by the Commerce Department. For the first eight months the totals passed those for either of the entire preceding two years. Based upon reports from 181 manufacturers, the department's report showed that up to Sept. 1, the factories this year had turned out 2,431,003 passenger cars and 253,774 trucks (including fire apparatus and street sweepers).

Town End Daylight Saving.  
New York—More than 350 cities and towns in New York and several eastern states that April 29 set their clocks forward one hour to save daylight during the summer, return to standard time. New York and New Jersey were the principal states in the eastern time zone in which under local ordinances, the daylight saving scheme was put into effect. Massachusetts has a daylight saving statute, while about 50 cities in the New England states observed the change in the clock.

PADDOCK WILL DEFEND TITLE

Noted Sprinter Will Compete in Athletic Program at Legion National Convention.

With the announcement that Charles W. Paddock, "Human Flash," will compete, interest in the athletic program to be held during the American Legion national convention in San Francisco has increased among Legionnaires over the country.

Paddock is known as the highest type of American athlete. In addition to holding most of the world's sprinting records, he was a soldier in the World War, a writer, leader of boy scout activities and has displayed talent in many other lines.

Paddock left high school to serve in the field artillery during the war. He attended a training school at Camp Zachary Taylor near Louisville and received a commission of second lieutenant. He won most of the sprinting events at the International Championships in Paris and has since established a number of world's records in the dashes.

The famous sprinter told Legion convention officials that he will be on hand to defend his laurels in

While the American end of the largest cable across the Atlantic between America and England was laid at Far Rockaway, N. Y., the British end was being laid at Weston Super Mare, England. In construction of this new cable—the largest ever manufactured for deep-sea operation—more than 4,000,000 pounds of copper and 1,800,000 pounds of gutta percha were used. This photograph shows the English end being laid.

## GATHERED FACTS

When some people are unable to do a thing they boast of it. Principle without interest is the kind that gets you nothing. Much linoleum is being made in England of the cork from discarded life preservers. The use of black powder has been discontinued at all coal mines in the Matanuska field in Alaska and less dangerous explosives substituted.

**How "Fireflies" Work.**

"Fireflies" are really not flies, but beetles. The light-producing organs are just inside the lower wall of some of the last segments of the abdomen, the segments involved depending on the species. The "lamp" consists of a substance termed luciferine, and the light is produced by the oxidation of this substance.

## Daddy's Evening Fairy Tale

MARY GRAHAM BONNER

### GRANDFATHER TURKEY

"At this time of the year," said Grandfather Turkey, "I like to talk to all the turkeys in the barnyard."

"Gobble, gobble, gobble," said the other turkeys. "Do talk to us, Grandfather Turkey."

"Yes, talk to us," said Teddy Turkey. "Tell us anything at all. We're well fed and we feel like a little rest. We don't feel like wandering or adventuring."

"No," said Grandfather Turkey, "of course not."

"Why do you say 'Of course not'?" asked Teddy Turkey.

"Ah, you are but a young turkey. You do not understand," said Grandfather Turkey.

"Won't you explain it to me?" asked Teddy Turkey.

Now Grandfather Turkey was much pleased when Teddy Turkey asked to have Grandfather Turkey explain his speech. There was nothing Grandfather Turkey enjoyed more than explaining and talking and strutting and gobbling.

"Yes, I will explain many things," said Grandfather Turkey, "and I will do so as soon as you all gather about me."

So all the turkeys gathered about Grandfather Turkey, and he began to tell them of many things.

"First I have a little news of the barnyard to tell," said Grandfather Turkey. "Jackie, the horse, is devoted to the little girl who is the daughter of the farmer."

"Whenever Jackie hears her footsteps he begins to neigh. Yes, he

knows her by her footsteps and doesn't wait until he sees her."

"Then he kisses her when she comes to see him and she kisses him, too."

"Oh, they are the best of friends, and it is very sweet the way Jackie neighs when he hears her in the distance."

"Then there is one other thing I wish to say before I begin to tell some Turkey news."

"That is that horseradish is an herb and people grate it and then put vinegar on it and eat it."

"I don't know why it is called horseradish. Turkey children, but I do know that horses don't eat it. I have heard that one of the reasons it has been called horseradish is because it is so strong an herb and horses are supposed to be so strong."

"I heard one of the Turkey children, saying the other day that it must be a radish vegetable for a horse."

"It is in the spring when people eat it mostly. How did you happen to hear of it?"

And Grandfather Turkey spoke to the Turkey child whom he had heard speak of horseradish a little time before.

"I heard the farmer's daughter telling another little girl how much she liked it and then I wondered if it could be that she enjoyed hay and oats and other food for horses."

"Gobble, gobble, gobble," laughed Grandfather Turkey.

"Well, now I must tell you Turkey truths."

"The reason you do not want to wander away and adventure forth these days is because you are being so well fed for either Thanksgiving day or Christmas day."

"Then you will be eaten without a doubt, or at least, very likely."

"But to make up for that kind of an ending you are given so much food before that time to fatten you up (which is very pleasant) you do not care to go away."

"It would be very foolish if you did! I must tell you a little Turkey history, too."

"Our ancestors, or those turkeys who came much before us, were from Europe, then they went to Mexico, and then they became domestic turkeys and now are thoroughly American."

"But our wild turkeys of this country are not our nearest relatives and they're not the ones from whom we are descended."

"Oh, we have our own history. Let me no think as they see us gobbling and strutting in the barnyard that we have no history."

"For we have—history and geography, too—for our ancestors have traveled and it is interesting to know that, too."

"Ah yes, gobble, gobble, those of our family who finally end up on a platter have had a history back of them at any rate!"

## NURSE FINDS A PERFECT REMEDY

"From my long experience as a nurse I do not hesitate to say that I consider Tanlac Nature's most perfect remedy," recently declared Mrs. I. A. Borden, 425 Pontius Ave., Seattle, Wash. Mrs. Borden is a graduate of the National Temperance Hospital, Chicago, and her wide experience in caring for the sick lends particular emphasis to her statement.

"I have used Tanlac exclusively for seven years in the treatment of my charity patients," continued Mrs. Borden, "and my experience has been that, for keeping the stomach, liver, kidneys and bowels functioning properly and for toning up the system in general, Tanlac has no equal. Recently I had a woman patient who could not even keep water on her stomach for fifteen minutes. Six bottles of Tanlac fixed her up so she could eat absolutely anything. Another patient, a man, seemed unable to digest any food at all. Three bottles of Tanlac put him in such fine shape he went back to work. These two cases are typical. My confidence in Tanlac is unlimited."

Tanlac is sold by all good druggists. Take no substitute. Over 40 million bottles sold.—Advertisement.

**Auto Ads Take Freak Shapes.**

For advertising purposes the wild business getter has never overlooked the possibilities of the automobile. Many are the cars with big painted signs on them proclaiming the advantages of some one's particular flour or the merits of so and so's cheese. They attract considerable attention, but in no way nearly as much as those freak-bodied automobiles designed to resemble a bottle or a shoe, or some such thing with the driver's compartment carefully concealed inside. Most of these are familiar sights, but it is unusual for a most novel of all—a miniature house on wheels. Perfect in every exterior detail, it represents a suburban residence, and when first sighted coming around a corner is startling.—New York Sun and Globe.

## CHILDLESS HOMES MADE HAPPY

Presence of Little Ones a Great Blessing

### Four Interesting Letters

**Cortland, N. Y.**—"I took Lydia E. Pinkham's Vegetable Compound because I was weak and wanted to become strong and have a child. My husband read about it in the 'Cortland Standard' and thought it might help me. It certainly did for I now have a lovely boy fifteen months old who weighs forty pounds. I recommend Lydia E. Pinkham's Vegetable Compound to my friends and you can certainly use my testimonial in your little books and in the newspapers, as it might help to make some other childless home happy by the presence of little ones as it has done mine."—Mrs. CLAUDE P. CANTFIELD, 10 Salisbury St., Cortland, N. Y.

**A Message to Mothers**

Hamilton, Ohio.—"I have known about Lydia E. Pinkham's Vegetable Compound since girlhood, having taken it when I was younger and suffering from a weakness and backache. Lately I have taken it again to strengthen me before the birth of my child, as I was troubled with pains in my back and a lifeless, weak feeling. I think if mothers would only take your wonderful medicine they would not dread childbirth as they do. I recommend the Vegetable Compound to every woman."—Mrs. J. FALCON, JR., 552 S. 11th Street, Hamilton, Ohio.

If you have an aim in life you can't afford to waste any time hating people.

Some of the things you ought to know can be learned in no other way than by reading the advertisements.

**St. Louis, Mo.**—"I want to tell you what Lydia E. Pinkham's Vegetable Compound did for me seven years ago. I was run down and had a weakness such as women often have. I took Lydia E. Pinkham's Vegetable Compound, and after being married sixteen years became the mother of a sweet little girl. I now have four lovely children—three fine boys and the little girl six years old. I had longed for children all the while and wept many a day and envied every woman with a child. I was 35 years old when my first baby was born. I recommend Lydia E. Pinkham's Vegetable Compound to any woman who is ailing with female weakness."—Mrs. J. NAUMANN, 1517 Benton St., St. Louis, Mo.

**Was Weak and Run Down**

St. Louis, Mo.—"My mother took Lydia E. Pinkham's Vegetable Compound when I was a girl, and when I was troubled with cramps I took it, and later when I married I again took it to make me strong as the doctor said I was weak and run down and could not have children. I took it and got along fine and now I have three girls. So you know why I keep the Compound in the house. I am a well woman and do my work and sewing too."—Mrs. JULIUS HARTMAN, 2501 W. Dodder St., St. Louis, Mo.

### LIVESTOCK LEGUMES LIMESTONE MEAN PROFITS IN FARMING

Sorting Potatoes for the Potato Show.

Remember the Top O' Michigan Potato Show to be held at Gaylord, November 7, 8, and 9, 1923. In this connection, remember one thing more and this with a vengeance—We are going to have some stiff competition in the various classes and if Crawford County gets away with a fair share of the premium money, someone MUST get BUSY and select the stuff with which prizes are to be won. Potatoes will win the premiums, nothing else will. How and what are we to select? Here are a few suggestions:

1. Select at DIGGING TIME.  
2. Dig by hand to prevent bruising. It is almost impossible to dig with a machine and not have bruised potatoes.

3. Wrap each potato in paper in the field. When the skins are tender you can't even carry them to the barn in a basket with others without danger of more or less bruising.

4. Place on a shelf or the cellar floor (away from rats and mice) unwrapping them to let skins set and dirt dry. Be sure to keep in a cool place, and at least fairly dark.

5. Do NOT wash these potatoes. When dry, brush clean with a soft brush or woolen cloth.

6. In making field selections select tubers weighing from 8 to 10 ounces, uniform in size, shape, clean, free from blemishes. Black Spot, Scab and other disease indications and TRUE to RURAL RUSSET type. CLASSES ARE TO BE MADE ARE:  
32 potato class (pick at least 34 or 35), separate classes being made for this number in the following varieties: Russet Rural, White Rural, Green Mountain, Irish Cobbler, Early Ohio and any other variety (different than these) of merit.

County exhibits are to be made consisting of 12 samples of 32 potatoes each, and this offers a fine field for competition. You must get busy and help fill these classes with the very best stuff or Crawford County won't get her share of the premiums. We have competition of the keenest sort, and if we are to have any chance at all we MUST get our samples, for all the classes, at digging time.

One class calls for the showing of 100 pound bags of selected certified seed stock. \$25.00 is the first prize here. \$20.00 is first in the 32 potato class for Russets; \$10.00 for Cobblers; \$10.00 for Early Ohio's; \$5.00 for the winner in the country class, and \$25.00 for the first prize in the Growers and Dealers class which calls for exhibits of 150 pound sacks of branded potatoes to conform to U. S. Fancy or U. S. Grade No. 1.

An Opportunity For All.

It matters not whether you grow certified seed potatoes or whether you are growing common stock and practicing selection methods, or even whether you do not take any special care of your seed stock, you are just as eligible for competition as those who do try for certification, except in the one class mentioned. In all classes, except one you are charged with just as much responsibility for selecting the best you have and making entries as any other grower. Each one MUST accept this responsibility and get BUSY while DIGGING to get the stuff, if they want a creditable sample for show.

Anyone who has done selection work for show purposes KNOWS what a job it is, and that it is to expect to get prize winning samples out of every bushel taken from the ground. It may require the sorting of all you can dig in three days or even a week, but it is worth all it costs. Crawford County MUST kick in with a fair share of the premium money and you as one of her citizens must share the responsibility in this situation.

Come on; be a good sport, and help the county put a good foot forward. Please, please don't say: "If they want a Potato Show let them hunt up their own potatoes!"

Enough people are leaving farms for the city already. We are trying to stem the tide and to advertise our potatoes to increase the outside demand; as well as to teach our farmers to raise a nice potato for that demand or home demand.

A lot of potatoes have been sold for \$2.00 a bushel. They are to be furnished by North Eastern Michigan farmers who win prizes at the Top O' Michigan Potato Show. The winners receive large cash prizes also. See more next week.

Very respectfully yours,  
The Michigan Historical Commission.

### FREDERIC SCHOOL NOTES.

Corra Nephew did not attend school Monday or Tuesday.

The Sophomores had a meeting last week and decided to have the white rose as their class flower and red and white as their class colors.

Marguerite—"Mr. Payne, would you like a kiss?" Mr. Payne, "I wouldn't mind." Of course we know it came from a red wrapper.

Mr. Payne—"Estella have you worked your 10 Algebra problems?" Estella—"Yes mom, all but nine." Florence came to school Monday, being absent since Friday.

Bright sayings:  
Mary—"It'll soon be Saturday again."

Estella—"You can tell by my eyes that I'm lying."

Ethel—"Key—ad, Onest?"

Our Junior class Vice President forgot to come to Latin class Monday being interested in "Pecks Bad Boy."

Edna amuses herself by playing with a red ribbon. I always knew she was dangerous.

Misses Opal Allen and Eva Vannetter visited the High School last Monday. They attend the High School at South Boardman.

I wonder where some of our Sophomores and Juniors were Sunday and who they were entertaining. Hope they had a good time.

I wonder why the Juniors school notes were not in the paper last week. Juniors of course forgot to put an address on the envelope.

Sophomores—Where did I see you before?

Junior—Down on main street entertaining the new preacher's son.

Junior School Notes.

The Junior class organized Tuesday afternoon of last week. The following officers were elected:

Louis Gardner—President.

Harry Hart—Vice President.

Johannes Peterson—Sec. & Treas.

Ethel Parsons and Esther Barber—Publicity Committee.

Bernice Allen, Leota Welch and Cora Nephew—Entertainment and refreshment committee.

Now that our class is organized, Juniors let's show them that we're on the job.

Sarcastic sayings of the Juniors intended for the Freshmen:

Bernice Allen—"So the Freshies have their battle flag out?"

J. Peterson—"Yeah!" appropriately worded in Yiddish.

The electing of officers in the Freshman class was sure exciting.

The office of president was carried by 22 to 1 odds by Francis Hunter.

He forgot about his election and promptly flipped his hat in the ring for Vice President. He also won this event by long odds. However when he was notified of his failure to hold two offices he gave a deep sigh and remarked "It ain't like it was in '73."

Mary Bender was the only "Suffrage" candidate that drew an office. The girls surely stood "pat" through it all. They should have taken at least one office, seeing that there were no more boys to elect.

We wonder—

Where two Juniors and one Freshman were headed for Monday evening. Why Graveling girls?

What allied Esther Monday noon. Too many apples maybe.

Why the Freshmen act so peeved at Juniors.

Where Leota, Esther and Bernard (?) were last Wednesday evening. Get any melons?

We wonder where Edna and Cora were Monday evening. "Out Steppin'?"

Why the Freshmen were so late in getting started for their marshmallow roast Friday evening.

Why Louis and Kenneth are so interested in taking up the study of Rhetoric.

It was reported that a Freshman and a "used to be" Senior were gathering apples Saturday evening after the dance at Beaver Creek.

We wonder where Edna first met B. O. B. and where she was Monday evening accompanied by Cora and Art.

We also wonder why Bernice and Esther wouldn't accept the basket of grapes offered them Monday evening. We imagine they were sour enough without them as we judged from their appearance. Maybe they had reasons. Look what happened Saturday night.

Where did all the golden glow turn out from on entering the High School room Tuesday morning.

Reward is offered for the one who threatened to kill the Juniors. But they can't be killed or at least Bernice and Esther think not.

Take notice girls Mr. Payne is al-

ways good natured when he receives a kiss in the morning.

Where does Cora get all her imagination?

We all know that Marguerite gets her morning exercise with her horse and buggy. Want company?

Beware of the Freshmen they are a dangerous sex.

### MONDAY IS BIG PAY DAY FOR UNCLE SAM.

Over \$150,000,000 in interest on Liberty and Treasury bonds will be paid out by the government on October 15th. Holders of Fourth Liberty Loan Bonds are urged to clip their interest coupons due on this date and present them for payment at any bank or post office. The U. S. Treasury now issues "Baby Bonds" which sell for \$20.50 each. Thousands of Americans have acquired the habit of buying one or more every month and have thus established a "reserve fund" the safety and growth of which is guaranteed by Uncle Sam. All postmasters have been authorized to accept Liberty Bond interest coupons, which are due, as part payment toward the purchase price of a new "Baby Bond". Holders of Government securities in this way can make their interest earn more interest.

### FREE: VOLUMES OF THE MICHIGAN PIONEER AND HISTORICAL COLLECTIONS.

The year 1924 is the semi-centennial year of the organization of the Michigan Pioneer and Historical Society which during a period of 50 years, published the Michigan Pioneer and Historical Collections.

In commemoration of this event the Michigan Historical Commission has arranged to supply these volumes free to every school, library, American Legion post, Woman's club, business club, D. A. R. chapter, newspaper office, lodge, grange—every organization that will make use of them to further the study of Michigan history. These volumes are neatly box-

ed for shipment, gratis. The only charge is the freight.

These volumes cover the entire field of Michigan's life, its resources, industries, people, politics, government, wars, institutions and achievements, the history of the church, the press, the schools of the State, its Indian legendary and prehistoric lore. Numerous historical illustrations adorn the pages; 700 pages to a volume.

The complete set originally comprised 41 volumes, but volumes 1-3, 5, 7, 22-29, 31 are now out of print. Each volume, however, is an independent publication with an index of its own, and there are two volumes of compiled indices covering the entire set.

If you desire for your office a set

of the volumes which are still on hand and will pay the freight, they will be promptly supplied.

Very respectfully yours,  
The Michigan Historical Commission.
